MURDERERS HANGED

Legal Executions in Several Different States.

A BUNGLING JOB IN TEXAS.

Jim Williamson Cut Down Before Life Was Extinct and Was Strung Up Again in an Unconscious Condition—A Public Hanging in West Virginia—Hangings in Missouri and Georgia.

HOUSTON, Tex., June 26.—Jim Williamson, a young man, was hanged yesterday at Wharton for his complicity in the murder of the Crocker family last May. Williamson's nerve failed him at the last and it was necessary to twice inject strychnine into him to enable him to mount the scaffold. He declared his father, also indicted for the crime, was innocent. Williamson was pronounced dead by the attending physicians three minutes after the drop fell, but upon being cut down was found to be alive. The body was hauled up and again sent through the drop and was allowed to hang 22 minutes. The first drop was very hurried, as the condemned man nearly fainted when the noose was adjusted.

The massacre of Crocker, his wife and 18-year-old son, grew out of a feud over land. Mrs. Crocker had previously been indicted for killing one day a member of the Williamson faction, but had not been tried. On the evening of the murder, Crocker and his family were surrounded by six men in a neighbor's house. Seeing escape for himself was hopeless, he sent his wife out on the prairie and put his boy between mattresses. The murderers finally shot him many times, found the boy and killed him as he lay, then pursued the woman. A Winchester was placed to her head and her brains blown out. Another member of the gang is serving a life term.

Murderer Publicly Hanged.

FAYETTEVILLE, W. Va., June 26.—Clark Lewis was hanged here yesterday at 12:40 p. m. in public, before a large and orderly crowd in a natural grove. The condemned man sang on the scaffold. There were no disorderly demonstrations. Lewis was hanged for the murder of Charles Gibson, whose death appeared to be desired by Mrs. Gibson, to enable her to continue uninterrupted her intimacy with Lewis and one or two others who were convicted with Lewis.

Hanging in Missouri.

ST. JOSEPH, Mo., June 26.—James Pollard, colored, was hanged in the jail yard in this city yesterday for the murder of Joseph Irvin, also colored. Pollard was pronounced dead in 20 minutes. The murder was committed in July, 1895. Pollard had threatened to kill Dave Irvin and went to the home of the Irvins at dark one night. Finding the family at supper, he fired at Dave Irvin, but missed him, killing the latter's brother, Joseph.

Negro Hanged in Georgia.

ATLANTA, June 26.—Terrell Hudson, a negro, who was to have been hanged two weeks ago for murder, but who was reprieved at the last moment by Governor Atkinson, died on the gallows at Decatur yesterday. The drop fell at 11:45 and 14 minutes later Hudson was pronounced dead, the fall having broken his neck. Hudson killed Seaborn Malcolm, another negro, in a quarrel about a dog.

HANGED BY A MOB.

Troops Called For to Protect the Prisoner, but Came Too Late.

JACKSON, Miss., June 26.—A negro named Moseley, who killed Farmer John Strong near Crystal Springs, Miss., a few days ago, and who was arrested at that place Thursday and confined in jail, was hanged by a mob there at 9:50 o'clock yesterday morning. The negro had been guarded by 100 armed men, and two calls for troops from this place had been sent, but owing to the absence of Governor McLaurin, and the fact that it was impossible to establish communication with Lieutenant Governor Jones, who is at his home in Woodville, the troops did not start for the scene until yesterday morning. The Capital light guards of Jackson were at the depot preparing to go by special train when, at 9:50, came a telegram that the negro was dead. The troops disbanded.

The crime for which the negro was lynched was most cowardly. He asked permission to ride with Mr. Strong, who had been to Crystal Springs and sold \$8.55 worth of tomatoes. He crawled into the wagon, brained the old man with a stick, robbed the body, took to the woods and let the team go home with the corpse.

After three days' search the murderer was captured. The mob was small, and, had the troops been ordered sooner, it could have been thwarted easily. But neither the governor nor lieutenant governor could be reached.

FESTIVITIES KEPT UP.

Queen Victoria's Jubilee Still Being Celebrated in London.

WINDSOR, Eng., June 26.—The queen drove to Windsor Park yesterday and visited 6,000 school children who were celebrating her majesty's jubilee. Later the queen received delegations from fire brigades belonging to all parts of the kingdom. The queen seemed in excellent health and spirits, and smilingly conversed with those around her. The firemen's parade was one of the largest ever held in England. There

were 1,200 men in line and 100 engines. The Duke of Marlborough, as president of the national fire brigade, presented the officers to the queen.

While the queen and the Empress Frederick were dining yesterday evening, a thousand Eton boys, with bands of music, entered the quadrangle of the castle and gave an exhibition of torchlight evolutions and fireworks. The charming spectacle was watched by the queen and the members of the royal household from the castle windows.

ONE MAN KILLED.

Key West, Florida, Virtually in the Hands of a Negro Mob.

KEY WEST, Fla., June 26.—This city was virtually in the hands of a negro mob last night and a white citizen was killed by the mob. At 4 p. m. yesterday, Silvanus Johnson, charged with assault on a white woman, Mrs. Margaret Atwell, was conducted to the courthouse for a hearing. The courtroom was crowded, and C. B. Pendleton, a well known citizen, arose and asked: "Are there enough white men present to hang the negro?"

There was a chorus of "Yes," and the crowd closed in on the prisoner. The sheriff and his deputies drew their revolvers and held the crowd at bay while Johnson was at once hurried back to jail. A big mob gathered in front of the building and one of the negroes cried out to lynch Pendleton, and a rush was made for him. Through the efforts of himself and his friends Pendleton made his escape in a carriage.

The negro mob then gathered again about the jail building to prevent the lynching of Johnson, and often threats were made by them to kill any white man that might come to the jail.

About 11 o'clock last night William Gardner, a white man, was sitting in front of the courthouse, when several of the negro mob approached him and ordered him to move on. He arose to obey, and as soon as his back was turned there rang out the crack of a number of rifles, and Gardner received a mortal wound, from which he died two hours later.

The whites are inclined to avenge Gardner's death, and another attempt to lynch Johnson is expected to be made. A serious conflict between the whites and the blacks is feared.

The militia is in readiness for any disturbance, having been ordered out by the governor, and the United States troops are at the orders of the sheriff.

NEED OF A REFORM SCHOOL.

No Place in Kentucky to Send Youthful Lawbreakers.

ASHLAND, Ky., June 26.—The grocery of C. L. McDaniel & Company was broken into the other night and \$14 taken from the money drawer. Tracks of small feet were found over the door and the theft traced to Jimmie Osington, a colored boy, who acknowledged having committed the crime.

This is the same boy who was sent to the penitentiary at Frankfort last winter for breaking a \$100 plateglass to steal 50 cents. Governor Bradley immediately pardoned him.

The sufferers from his numerous depredations have anything but complimentary remarks for his turning loose on the public. Such cases emphasize the need of a reform school in this state.

"Old Hoss" Hoey Insane.

DETROIT, June 26.—William Hoey, the actor, widely known in theatrical circles as "Old Hoss" Hoey, who has been taking the baths at Mount Clemens, has lately developed signs of mental unsoundness, and yesterday a party of friends started with him for New York city, where he will probably enter Bellevue hospital for treatment. Within the last few days his mental vagaries have assumed a violent form, and it is feared by his physicians that he will never recover.

Millionaire Working For 40 Cents a Day.

MERIDEN, Conn., June 26.—John Sutliff, who was one of Meriden's richest men, is dead at 95. His father gave him \$100 capital as a start; he died worth \$1,000,000, it having been made in the manufacture of combs. When he retired from active management of his company he returned to his bench and went to work again. Toward the last he could make only 40 cents a day, because of his feebleness.

Found Dead in Bed.

CHATTANOOGA, June 26.—Hon. J. H. Bible, United States district attorney for East Tennessee, and one of the most active politicians in the state, was found dead in bed at his home in this city yesterday morning. Death is ascribed to apoplexy. Mr. Bible had charge of several large lawsuits for the government, which are as yet unsettled, and his death at the present time is particularly unfortunate.

Insurgents Very Much in Evidence.

NEW YORK, June 26.—A special to The Herald from Havana says: General Gomez is still west of the Juncos-Moron trocha, and when Garcia was last heard of he was encamped near Bayamo. In the meantime in the "pacified" provinces the rebels are very much in evidence. Castillo had a skirmish with a Spanish column on June 18. The Spanish were routed and lost 33 men and four officers.

Manufacturers Assign.

SANDWICH, Ills., June 26.—The Sandwich Enterprise company, manufacturers of wind-mills, cotton planters and farm materials, has made an assignment to D. W. Crawford of this city. The liabilities are placed at \$200,000. Prior to filing the articles of assignment, the company confessed judgment for \$50,000, of which amount \$35,000 is in favor of the Sedgwick bank.

A REVIEW OF TRADE.

There Is No Step Backward in Business.

THE TIDE HAS BEGUN TO RISE.

Business Men in All Parts of the Country Are Regulating Their Contracts and Investments and Their Plans for the Future With a Confidence Quite Unknown to Them a Short Time Ago.

NEW YORK, June 26.—R. G. Dun & Company's weekly review of trade says: There is no step backward in business, although the season of midsummer quiet is near. Improvement continues, gradual and prudently cautious as before, although in many branches evident where no signs of it appeared a few weeks ago. Business men of the highest standing in all parts of the country, having gradually perceived that the tide has begun to rise, are regulating their contracts and investments and their plans for the future with a confidence quite unknown to them a short time ago. Great changes before the adjournment of congress are not to be expected, but removal of uncertainty is with reason expected to bring into operation buying forces which have been restricted for months.

The main factor at this time is the steadily brightening prospect for crops. Harvesting of wheat has already begun in the winter wheat states, with surprising good results in the central region and California, so that 800,000 tons is now called for from the latter state and the statisticians of repute now calculate on 60,000,000 bushels winter wheat beyond the government estimate. Spring wheat is doing remarkably well, with a practically unknown acreage. The price had advanced 1 1/2 cents during the week, with a decrease of 1,200,000 bushels in western receipts and Atlantic exports of only 1,445,947 bushels, flour included, against 1,713,961 last year, but it is just the season when figures have no value except as proving how erroneous were estimates of the crop of 1896.

Cotton was lifted an eighth without reason, and has fallen back as much, because everything points to a larger crop than has been commonly expected.

Iron and steel products average a small fraction lower in published quotations, but only because private concessions, which are now refused, were by various authorities complacently concealed two weeks ago.

Pig iron is firmer with a better demand at the east and at Chicago, but the impatience of valley furnaces to resume work keeps Bessemer and grey forge at last week's quotations at Pittsburgh. The best of the news is material in certain orders for plates in part for shipbuilding, in bars for agricultural implement works, in structural shapes for buildings and bridges, and in galvanized sheets. One heavy contract for 300 miles 30-inch and 100 miles 10-inch pipe, bought by the Australian government for gold regions, excites many hopes in the trade. The great ore producing companies are cutting prices of Mesabi, Bessemer and Fayal to \$2.10, apparently in order to score the biggest possible business of the year as a basis for future combination. Tin has slowly advanced to 14 cents, in spite of heavy arrivals, 1,200 tons lead have been sold, moderate quantities now bringing 3.42, and purchases advance lake copper to 11 1/8 cents.

There is encouraging increase in the demand for all textile goods, even for cottons, which have so long been slow, and though it is but moderate, there is nothing of a speculative character in the transactions, and prices are firmly held. Re-orders for woolsens have been rather better than were expected from clothiers and fairly good for dress goods. Operations in spring goods are still deferred. While mills are somewhat better employed and are buying to some extent, most of the purchases of wool are for speculation, nearly three-quarters being at Boston alone, and the aggregate was 8,733,800 pounds at the three chief markets, 5,610,300 of foreign wool. Domestic wool is still held at relatively high prices in the west.

Failures for the week have been 216 in the United States, against 217 last year, and 24 in Canada, against 24 last year.

WHOLE TOWN THREATENED.

An Incendiary Fire in the Early Morning at Nicholasville, Ky.

NICHOLASVILLE, Ky., June 26.—At 2 o'clock yesterday morning a fire broke out in several different places in Sparks' building on Main street, opposite the Hotel Nicholas. In a few minutes the handsome building was completely enveloped. Water plugs were spiked on account of the difficulty between the water company and the town, and it seemed the entire town would burn. However, the spikes were broken, but too late to save the block and it was completely destroyed. The fire was undoubtedly incendiary.

It is believed some villain started it out of revenge toward some of the losers. It is the third fire in the same building within the last two years. The last one was April 8 and the rebuilding was just completed. A low estimate of the loss is \$30,000. Insurance about \$20,000. The principal losers are: E. R. Sparks, \$10,000; Klein & Son, \$11,000; E. M. Hilton and Crutcher & Company, \$4,000 each.

COCAINE FOR THE EYES.

Firemen Enabled to Look Through Smoke For Fifteen Minutes.

NEW YORK, June 26.—An experiment has been made at a fire in the downtown district which may prove of im-

mense benefit in fighting the flames. Dr. Gustav Schoeler, who is attached to the fire department, went to each company stationed at the blaze, and with a little brush put a drop of cocaine in the eyes of every fireman.

This was the result of some tests which have been going on in the department by which it has apparently been proved that the cocaine would enable the men to look through smoke for 15 minutes or more.

LIGHTNING'S HAVOC IN GEORGIA.

Several People Killed and a Vast Amount of Property Destroyed.

ATLANTA, June 26.—Lightning played havoc with life and property in Georgia yesterday. The daughter of the mayor of Powder Springs, a popular summer resort in this state, Miss Hattie Scott, was slain by a bolt yesterday evening, and at the same place a powerful threshing machine was torn to pieces by lightning, its operators dangerously injured and the draught oxen killed.

At Carrollton, the center of the stock-raising industry in the state, James Downs, Jr., and Samuel Connie, both white, were struck and killed by lightning, the bolt tearing their clothes and discoloring their features. Damage to property at this place will be immense.

At Milner, in the northern portion of this state, a bolt struck on Mr. J. A. Farley's farm and killed Samuel Lawrence, a colored farmhand, badly burned another, and injured Mr. Farley's son.

The storm which accompanied the electrical display, flooded all the waterways, and the loss of property, owing to fires originating from lightning and resulting from the floods, will range very high.

The lightning played curious freaks, sometimes merely touching an old ruin and again destroying some pretentious planter's residence. The damage in the large towns was comparatively light.

LAWYERS AS MATCHMAKERS.

Wife-Hunting and Husband-Hunting With Successful Results.

SHELBYVILLE, Ind., June 26.—Two months ago Tindall & Tindall, attorneys of this city, were commissioned by Theodore Jacob, a farmer, 74 years old and worth \$20,000, to find him a wife, which they did in the person of Miss Blanch Whitam, 18 years old. Mr. and Mrs. Jacob are now living happily together.

Three miles distant is the home of Mrs. Mary Ann Shaw, 68 years old, who was a widow without children. She owns a nice home in Cynthiana and has \$4,000 cash. Mrs. Shaw heard of the Jacob marriage, and she gave the attorneys a similar commission, and they selected William Downard, a farm hand, without a job and a bachelor, who is 44 years old.

Last evening Mr. Downard and Mrs. Shaw met for the first time, and were married by Squire Andrews. A wedding supper followed at a restaurant; Mrs. Shaw-Downard paid the attorneys and all expenses, and the husband and wife left for Cynthiana.

SAVED BY LIFESAVERS.

Three Ohio Men Narrowly Escape Drowning at Louisville.

LOUISVILLE, June 26.—Three prominent citizens of Toledo, O., had a narrow escape from drowning yesterday afternoon. They had just arrived in this city from Cincinnati on the naphtha launch Restless on their way to the great lakes. When they got to the canal, instead of going through, they steered the boat straight for the falls, intending to go over them, evidently not knowing the risk they were running. The boat was caught in the Kentucky chute and was rapidly being carried to destruction, when the men on the look-out at the lifesavers' station saw them and gave the alarm.

Captain Devan sent a skiff to their rescue, and they were caught just as the prow of the launch was going over the falls. The lifesavers towed them to the shore, where they tied up for the night. They gave their names as Gus Weber, Perry Lawrence and Bert Wilson. The party proceeded on their way to the great lakes this morning.

Death of the "Astor Tramp."

NEWBURG, N. Y., June 26.—John Garvey, the famous "Astor tramp," died in the hospital at Matteawan yesterday. Garvey, one day about two years ago walked into the residence of Mrs. William Astor in New York, made his way upstairs, and went to bed in one of the chambers, where a servant found him. He was arrested, and on trial, was shown to be mentally unbalanced. He had for years been a habitue of the Bowery in New York.

Death of William Louis Winans.

LONDON, June 26.—William Louis Winans of Baltimore is dead. He was 75 years of age. Mr. Winans was a member of the celebrated Winans firm that constructed the St. Petersburg and Moscow railroad in Russia. They did more than any others to open up the interior of Russia and to aid that country to keep pace with the progress of civilization by utilizing the great advantages of railroad lines in that territory.

Minister Drops Dead.

KOKOMO, Ind., June 26.—The Rev. K. E. West, pastor of the Harrison street Christian church, this city, for five years, suddenly dropped dead last evening as he was in the act of reading the evening paper. The cause is attributed to heart failure. Mr. West had been previously stationed at Logansport, Marion and other points and was 43 years old. He was a popular minister, and a man of extended influence.

TERRIFIC EXPLOSION.

Sawmill Boiler at Fostoria Suddenly Lets Go.

THREE MEN BADLY INJURED.

Two of Them Were Hurt in the Wreck, While the Third One Was Painfully Scalded—A Boy Drops Dead—Robbers Fired On—Freight Train Wrecked. Other Ohio State News.

FOSTORIA, O., June 26.—Steam got too high in the boiler of Hatfield & Son's sawmill, five miles west of here, at 8 o'clock yesterday morning, causing it to explode. Ephraim Mills, manager; Seymour Mills, engineer, and John Hostler were hurt. Ephraim was struck in the side by heavy timber, breaking two ribs and causing internal injuries. Hostler was upstairs. The floor was taken from under him, throwing him on a pile of debris, breaking two ribs and causing internal injuries. Both are in a serious condition. The engineer was scalded from neck to waist very badly.

The boiler room was demolished, and nothing is left to show where the boiler stood. The boiler was lifted and carried at least 40 feet, taking the floor of the second story with it, stopping at the end of the building. The head went the other way, striking a house 400 feet away. The mill has been operated more than 30 years without a serious accident.

Boy Drops Dead.

HILLSBORO, O., June 26.—Charles Knotts, aged 16, son of Benjamin Knotts, living a few miles north of this city, dropped dead about 4 o'clock yesterday afternoon. The boy, in company with several companions, started to run a foot race across a field. Young Knotts seemed to stumble and fall. As he failed to rise the boys returned to where he was lying and found him dead. Coroner Larkin was summoned and held an inquest. Death resulted from organic disease of the heart.

Miners' Strike Postponed.

COLUMBUS, O., June 26.—The national executive board of the United Mine Workers yesterday considered the question of a general strike. While conditions in Ohio and Pennsylvania would warrant a suspension at this time it was practically decided that no strike would be ordered before next fall. The question of adjusting prices will be left to the district officers.

Protected His Money With a Gun.

LIMA, O., June 26.—Peter Jones, who runs a merry-go-round at Hoyer's lake, was aroused late at night by four men in his room at the lake. He pulled a revolver and began firing. Two of the men were wounded and one had to be carried away by his friends. Jones had taken in a large sum of money the day before, and robbery is thought to have been the object.

Freight Train Wrecked.

LIMA, O., June 26.—Westbound freight train No. 85 of the Chicago and Erie road, broke in two near Kemp station and the two parts collided, wrecking 20 cars. A cattle car was telescoped by a freight car, in which two tramps were stealing a ride. They were both badly injured but escaped with their lives. The track was blocked for several hours.

Wages Reduced.

STEBUNVILLE, O., June 26.—Notices were posted last evening in the furnace department at the Mingo Junction Iron and Steel company that after July 1 the wages paid would be what they were in 1894, which is the price paid in this district. Notices were posted in the other departments to the same effect, and it means a reduction of about 15 per cent.

Convicted of Embezzlement.

COLUMBUS, O., June 26.—Ex-Cashier John A. Knight, of the defunct Fifth Avenue Savings bank, in which a shortage of about \$80,000 was found, was last night convicted of embezzlement, the specific charge being the embezzlement of \$100 deposited by D. H. French.

Suicided on His Wife's Grave.

Electric Plant Burned.

BOWLING GREEN, O., June 26.—W. H. Millikin's electric light plant was completely gutted by fire yesterday. A low gas fire was left under the boiler and it blazed out the furnace doors, communicating to the woodwork. The loss is about \$10,000, partly insured.

THREE more murderers were turned out of the penitentiary Thursday by Acting Governor Worthington.

CIVIL service seems to worry the editor of the Ledger more than anything else these days. He should call in Dr. Cleveland.

THE Ohio Republican State convention—as the Ledger said it would—"didn't do a thing" to Mister Cleveland's application of the civil service rules. Out and away with the disgraceful, un-American fraud!—Public Ledger.

And this "un-American fraud" has been endorsed by the Republican party for these many years. Of course, what the Ohio Republicans have done will cut a big figure in regard to the standing of the law. Nit.

THE Senate computations of the equivalents for Dingley bill rates on woolen goods make opposing argument unnecessary in the mere reading. For example, the rate is 55 per cent. on second class wool, 289 per cent. on garnetted waste, 326 per cent. on shoddy, 171 per cent. on woolen cloths valued at not more than 50 cents per pound, 167 per cent. on blankets more than three yards in length and valued at not more than 50 cents per pound, 212 per cent. on shawls valued at not exceeding 40 cents per pound, 151 per cent. on knit fabrics valued at not exceeding 40 cents per pound, 257 per cent. on hats of wool valued at not more than 30 cents per pound, 419 per cent. on felts of the same value, 147 per cent. on plushes valued at not over 40 cents per pound, and 64 per cent. on the aggregate of woolen carpets.

"The people of the United States could better afford to buy every sheep in the country and to put every shepherd on the pension list than to submit themselves to such shameless plundering," is the assertion of the Philadelphia Record.

CIGAR MAKERS.

They Enter a Big Protest Against the Proposed Republican Leaf Tobacco.

INDIANAPOLIS, IND., June 24.—There has been a rapid flight of telegrams between this city and Washington for several days, a local committee of cigar manufacturers urging upon Senator Fairbanks to fight for a lower schedule on Sumatra leaf. The smaller manufacturers demanded that it be reduced from \$1.50 to 50 cents, but instead it has been increased to \$2.

The higher price is backed by the Eastern combine, numbering only about twenty-five manufacturers, who are anxious to freeze out the competition of smaller concerns.

Andrew Steffen, of this city, foremost in the contention for a low rate, claims that if \$2 is adhered to, it will affect 20,000 factories, and possibly throw 250,000 cigar makers out of work. He also believes that it will be the death of the Cigar Makers' Union.

So Mr. Gilman Brown, of 34 Mill street, South Gardiner, Mass., was told by the doctors. His son had lung trouble, following typhoid malaria, and he spent \$375 with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. Postmaster Wrangle.

CATLETTSBURG, KY., June 24.—The wrangle between John F. Jones and S. L. Mitchell over the postmastership continues. They went to Vanceburg on Monday, presumably to harmonize with their mutual kinsman, Congressman Pugh. To-day Mitchell is out in a card in the local paper denying any compromise with Mitchell. County Judge Hailey has been asked by Pugh to hold a vote by Republicans within ten days to decide upon the appointee.

We Can't All Go Summering

To the mountains or sea. Indeed most of us are stay-at-homes, but you can lighten summer trials and temper the heat by a modest investment in the featherlight French Dimities we offer just now. You know the kind we mean. They are almost as sheer as Organdy with a satin gloss that throws out the figures in beautiful relief. Early in the season they sold for 25c., but to-day the price-shearer clips 10c., and you have a choice of eighteen different patterns of 25c. French Dimity for 15c. This price is for to-day and the days to come.

E. Z. WAIST.—Have you tried it? All one fabric, will not shrink. Buttons warranted not to pull off. Every mother appreciates its value. Every child loves its comfort. Price 25c.

CYCLE NEWS.

Interesting Items Telling of Events in Local Wheel Circles—The Recent State Meet.

Williams' wheel is out of sight.

Jess Williams will wheel to Minerva Sunday.

Miss Agnes Comer has purchased a Crescent.

Cox ran to Wedonia Friday night to make a call.

Warren Dutcher is up to date on his new Monarch.

There are good crowds at the park these pretty evenings.

It looks like business to see the wheels come in to our merchants.

When you see the gear case, it is Captain Kackley or Bert Pearce.

Rich Easy Club will entertain Tuesday evening at Buttermilk Station.

Robert Perrine, Jr., and brother, Emmett, are riding the "Blue Grass."

Willett and Diener made the return trip from Paris Sunday in four hours.

Jim Mills wants to know what wheel Willett rides. It's a Cleveland, Jimmie.

Captain Jenkins says the wheel saved his life, and fully enjoys the exercise and sunshine.

Elija Reese, of Mayslick, purchased a "William's" wheel from the Frank Owens Hardware Company.

Captain Kackley and Perrine Jenkins made a run of forty miles in three hours and forty-five seconds, including stops.

The wheelmen who attended the bicycle meet at Cynthiana returned home Thursday, except Mr. Henry Gabby who will visit Falmouth, Lexington and Nicholasville.

Maysville has some promising riders if they would only not overtrain. That's the trouble with the majority of young riders. Too much work is worse than not enough.

The latest dog "dope" is an ammonia syringe fastened to the handle bar and taking up no more room than an ordinary brake. One squirt and the canine makes his escape.

Lexington seems happy to know the wheelmen will meet with her in '98. Middlesborough and Paducah made a strong fight, but failed. Middlesborough's committee spending \$200.

Everything was made free at Cynthiana for the wheelmen, and, as a mark of welcome, the city was nicely decorated. Regular Kentucky hospitality was shown the visitors and was fully enjoyed.

Notice was made in last week's issue of the store rooms on Second street to be opened next year by the Frank Owens Hardware Company, and that they were to sell "bicycle sundries only." We correct this, as the firm will handle a full line of bicycles, as well as bicycle sundries.

Miss Wadsworth is certainly a finished and brilliant pianist. She will perform Monday night at opera house. Maysville should be proud of so gifted an artist.

REV. HENRY G. PERRY, LL. D.

Derives Immediate, Lasting Benefit From Paine's Celery Compound.

Few professional men have had varied, helpful, successful career of Rev. Henry G. Perry of Chicago.

A native of Philadelphia he became an honor man of Kenyon college; was admitted to the Ohio bar and licensed by the supreme court of Illinois; served as U. S. chaplain under Gen. Davidson in the civil war. He edited the Pacific Churchman in San Francisco and became rector of Trinity Church in that city, and in 1870 took charge of St. Paul's now the pro-cathedral of Springfield, Ill. Dr. Perry is now the second senior priest in city residence in Chicago. He writes the following letter:

CHICAGO, ILL., April 7, 1897.
Messrs. Wells, Richardson & Co.: Dear Sirs: Having suffered severely from the grippe during the winter, last month I began taking Paine's Celery Compound, at the urgent instance of a friend who recommended it very highly. I soon felt its beneficial effects, and deem it a speedy and excellent remedy in such cases; so much so that I freely send you this endorsement, and commend its use to all similar sufferers. It is a boon to the sick. Truly yours, HENRY G. PERRY.

Paine's Celery Compound can be trusted to make one well. The enthusiastic accounts from near friends and relatives whom it has cured of kidney and liver troubles or a general "run-down" state of health give assurance to thousands of the marvelous power of this greatest remedy.

A thorough building up of the disordered nervous system follows the use of Paine's Celery Compound. It dispels harmful humors from the blood, and increases its volume and at the same time its nourishing capacity. The power of Paine's Celery Compound over dyspepsia, skin diseases, headaches, kidney derangements, and other disorders, is unquestioned by the most competent authorities. Don't suffer from headaches, despondent spells, melancholia or any form of depression that comes from indigestion or liver disorder. Trust Paine's Celery Compound. You will not be the first person, nor the second, nor the hundredth, nor thousandth it has permanently and speedily cured of the same trouble.

The nervous system when deranged is like a clock without a balance wheel that goes too fast and strikes every few minutes. The nerves need to be regulated or they quickly "run down," just as a clock would do. The regular, unhurried tic-tic of the heart means that it is working in a healthy manner. Palpitation and throbbing point to a dangerous lack of nerve force, that sooner or later will lead to fatal heart failure.

At the first indication of deficient nerve force, be it heart trouble or nervousness, Paine's Celery Compound should be used to supply the needed vigor, build up the waning vitality, drive out disease and guard against future mischief.

MISS WHEELER, who has achieved quite a fine reputation among Southern States people for her splendid capacity to teach voice culture, is no less well known for her wonderfully sweet and bird-like voice. She is at home for the vacation and will give our people an opportunity to hear her in some of the songs which have brought her into prominence. Hear her at mission concert Monday night.

Too much praise can not be given Miss Lyda Berry for her interest in the festival of song and music for Monday night. Though not down for a solo, she is to be accompanist, and no fitter pianist there is for this hard office. She is so thorough a musician and so gifted an artist as to stand front in all musical matters.

Good morning, reader! Have you bought a ticket for Monday night's festival of song and music? Proceeds for the benefit of First ward mission.

—Judge Coons has returned from Frankfort for the summer.
